

INSPIRATION FOR YOUR DREAM BATHROOM

### Ultra Finishing **Inspired living**

For over 35 years we have gained a wealth of experience supplying the leading names in bathrooms. What sets us apart? We are proud to manufacture the majority of our products at one of our partly, or wholly owned factories either in the UK or overseas.

What does this mean to you? We have control over our supply chain and bring quality bathroom products direct to your business. We specialise in delivering exceptional value to our trade partners and are proud to be home to the Hudson Reed, Ultra, Old London and Premier Bathroom brands.

### Our Market **Leading Brands**

### ultra

Leading suppliers of taps and showers for over 35 years

The first brand to be introduced by Ultra Finishing, 'Ultra' has been renowned for quality brassware at affordable prices for decades.

All our taps are manufactured from high grade brass and are coated with an extremely durable chrome finish. Whether it is brassware for basins, baths or showers they are all cyclic tested for longevity and peace of mind. Additionally ceramic disc technology features on many of our ranges for smooth operation.

Ultra offers one of the most comprehensive ranges of showers available in the UK. Our Twin, Triple and Dual thermostatic shower valves are endorsed by the Made in Britain scheme and are manufactured at our site in Halifax. They have also earned the accolade of the industry certified TMV2 and TMV3 approvals. Unless otherwise stated all products feature a 10 year guarantee against manufacturing defects.

To find stockists & for more specific product and brand details visit:

www.homeofultra.co.uk

### PREMIER

#### **An Essential Guide** for every bathroom

Premier features a complete bathroom offering and boasts one of the largest collections of bathroom products in the UK. The extensive ceramic and bathroom furniture sections have something to suit every taste, budget and bathroom size. Whether you prefer a long soak in a luxurious freestanding bath, the look of a minimalist wet room or the versatility of a shower bath, Premier has it all.

You will also find the innovative Pioneer shower valve, a patented design utilising technology from the aerospace industry, which is starting to revolutionise showering in the UK plus a range of increasingly popular bar showers and complementary taps

Over recent years Premier has been the fastest growing brand in the bathroom industry. The key to our success is simple - we have rapidly expanded into exciting new product groups to be at the forefront of the market.

Premier's great value products are backed by a 5 year guarantee (unless otherwise stated) against manufacturing defects. We are also pleased to offer a lifetime guarantee on the wet room screens and UK manufactured Pearlstone trays.

#### OLD LONDON TRADITIONAL BATHROOMS

#### The Perfect Backdrop of **Style and Tradition**

Old London offers a range of timeless furniture designed with quality and craftsmanship

The beautiful furniture pieces feature a solid wood effect with soft close doors. All furniture is supplied rigid, complete with handles and legs fitted.

With its muted colour palette of Ivory, Pistachio, Stone Grey and Natural Walnut, Old London furniture provides the perfect back drop in any traditional bathroom backed up by a 5 year guarantee against all manufacturing defects.

Also new to the Old London collection is our range of butler kitchen sinks, manufactured in ceramic, these classic sinks are the perfect addition to a traditional kitchen.

#### **Ultra Finishing Guarantees**

Exceptional quality is one of the key factors contributing to our  $\,$ success. We offer market leading guarantees against manufacturing defects on all products when used in normal domestic applications (excluding neglect or abuse) and provided they have been maintained in accordance with our instructions. Additionally, we guarantee the surface finish on chrome and stainless steel. Serviceable, moving parts and bath screen/shower enclosure seals are subject to normal wear and tear and are therefore covered on all products for 12 months from purchase.

All of our ranges are marked with the relevant guarantee for the range. Where individual products have a different length of guarantee, the icon appears next to the corresponding product. All guarantees are valid from the date of purchase and are

non-transferable. The guarantee extends to replacement parts or equivalent products only and does not include labour or incidental  $% \left( 1\right) =\left( 1\right) \left( 1\right)$ costs incurred.

### MADE IN BRITAIN

We're proud members of the Made in Britain scheme and manufacture a growing number of products right here in the UK. Look out for the 'Made in Britain' logo on all relevant products.

We are delighted to have achieved Level 4 Achilles Building Confidence accreditation in September 2014.

The accreditation is centred around key areas of legislation including Quality and Health & Safety, Sustainability, Corporate Social Responsibility, Immigration Law and an increased focus on the financial stability of a company. The accreditation is a comprehensive  $\,$ and robust audit of a company's systems and procedures and is a requirement of major buyers in the industry, to meet their legislative and risk management needs.

Stylish CERAMICS

#### **Basins & Pedestals**

A selection of our basins have full and semi-pedestal options. You can create an illusion of more floor space by choosing a basin with a semi-pedestal, whilst the full pedestal is ideal for concealing pipework.

Flush to Wall ----Flush to wall option provides that minimalist look with concealed pipework, making the bathroom easier to clean.

Free Standing Basins / P032

THE **Essentials** These key features are highlighted on each product page, where applicable:

### Soft Close

Soft close seats endure less wear and tear and have a smoother, quieter action ideal for ensuites

#### Flush to Wall WC

Aesthetically pleasing and hides your pipework, leaving fewer places for dust to collect and making it so easy to clean

### Comfort Height WC

A comfort height WC has a higher pan than standard toilets - ideal for those with limited mobility

#### Compact Options

A choice of compact sizes provides options ideal for cloakrooms or smaller bathrooms

### COMBINATION

### By Design

FEATURING Hudson Reed

Gloss White / P078

Driftwood / P080

Grey Avola / P082

Hacienda Black / P084

Range Overview & How to Order / P086

THE **Essentials** These key features are highlighted on each product page, where applicable:

Supplied Rigid

Made in Britain
The products with this symbol are made in Britain to the highest quality standards.

Rigid built products are quicker

#### Soft Close

Soft close doors endure less wear and tear and have a smoother, quieter action - ideal

#### Configurable

Customise to achieve the look you want, whether it's different handle styles or a choice of basins

#### Compact Options

A choice of compact sizes provides options ideal for cloakrooms or smaller

## Gloss White (5)

Combination Furniture

The popular high gloss white finish blends seamlessly with the polymarble basin, bringing simplicity and style to your bathroom.

# Driftwood (5) MAPPIN

#### Combination Furniture

The warm natural tone of driftwood contrasting against a white basin and WC provides the perfect setting for any bathroom. Combine with our coordinated bath panels to create a harmonious look.

-Hudson Reed\_ Combination / Furniture

# Grey Avola (5) NEW NEW

Combination Furniture

The newest addition to our combination furniture, Grey Avola marries on-trend grey and natural woodgrain to create a unique statement in your bathroom.

# Hacienda (5) Black

Combination Furniture

The new striking hacienda black with the sleek style of the grain creates a warm finish to your bathroom. Where space is at a premium the slimline basin countertop and cabinets are a perfect solution.

### Combination Furniture Basin & Unit Selection

Our Combination Furniture is designed to be flexible, so you can create the look you want that fits your bathroom perfectly. We have a selection of basins that allow you to create a run of units together, or to have standalone units where space is limited.

#### HOW TO **Order**

#### **Choose your Basin**

If you have space for a run of units together, choose from our 1000, 1100, 1200 or 1500 basins. For standalone units, choose from our 400, 500, 600 and 800 basins and WC tops.

#### STEP 2

#### **Choose your Units**

If you've chosen to create a run of units together, there are lots of combinations available! We've shown some options on page 88 to help you choose.

#### STEP 3

#### **Choose your Colour**

Tailor the look by choosing from one of our contemporary colours, Gloss White, Driftwood, Grey Avola and Hacienda Black.

Hacienda Black / P98

Range Overview & How to Order / P100

Handles & Worktops / P102

Ceramics / P104

THE **Essentials** These key features are highlighted on each product page, where applicable:

Soft close doors and drawers

endure less wear and tear and

have a smoother, quieter action

- ideal for ensuites

Soft Close

Made in Britain
The products with this symbol are made in Britain to the highest quality standards.

#### Supplied Rigid

Rigid built products are quicker and easier to install.

#### Configurable

Customise to achieve the look you want, whether it's different handle styles or a choice of basins

#### Compact Options

A choice of compact sizes provides options ideal for cloakrooms or smaller

## Gloss White (5)

Fitted Furniture

Create a streamlined, simple look with our gloss white fascia. We've teamed it with our Black Sparkle worktop and chunky handles to create a bold look.

-Hudson Reed\_ Fitted / Furniture

# Driftwood 5

Fitted Furniture

An eclectic mix of traditional colour and modern accents, Driftwood fitted furniture creates a statement in any bathroom. Use a Maia worktop for modern luxury or a laminate worktop for a more traditional look.

# Grey 5 NEW Avola

#### Fitted Furniture

Create that focal point in your bathroom with horizontal styling and a warm finish. We've teamed it with sleek chrome handles to maintain that minimal look, while plinth lighting creates a subtle mood.

-Hudson Reed\_ Fitted / Furniture

### Hacienda (5) Black

The striking new Hacienda Black door, teamed with colour coordinating mirror cabinets and shower bath panels, creates the ultimate wow factor in your dream bathroom.

### Fitted Furniture Units & Accessories

Our fitted furniture is ideal for providing storage in a busy family bathroom. With full depth and compact units available, you can hide away your toiletries in even the smallest of spaces. Customise your look further by choosing from our selection of ceramics, worktops and handles.

#### HOW TO Order

#### STEP 1

#### **Choose your Units**

Choose as many or as few units as you need to meet your storage requirements and the space available. Don't forget that wall units provide storage without taking up precious floor space!

#### STEP 2

#### **Choose your Colour**

Tailor the look by choosing from one of our contemporary colours. We've shown Gloss White below, but also available are Driftwood, Grey Avola and Hacienda Black.

#### STEP 3

#### **Choose your Finishing Touches**

Express your own style by choosing from our selection of worktops, handles and ceramics found on pages 102-105.

104 Ultra Finishing / Inspired Living www.ultra-finishing.co.uk 105

Innovative design.
High-tech features.
It's time to look
at mirrors in a
new light

Mirrors can make a big impression in a bathroom – not just aesthetically, but also functionally. They reflect light and create space. With the right mirror or cabinet, a room can suddenly feel bigger.

As well as stunning design qualities, our mirrors also have innovative features that make them even more desirable. From touch sensor and motion sensor LED lighting technology through to Bluetooth with integrated speakers, they can add another level of luxury. And, of course, our cabinets can help maintain those sleek bathroom lines by keeping everything neat and tidy.

### Installing Electrical Products in Bathrooms

Our illuminated mirrors must be installed in accordance with the latest version of BS7671:2008. If in doubt, consult a qualified electrician.

#### IPX4 Splash Proof:

All of our mirrors and cabinets fitted with a light are splash proof and suitable for use in Zone 2.

For full information on Lighting Zones, see page 120 in our Bathroom Lighting section.

#### Lighting Zones

#### **ZONES EXPLAINED**

Safety is the main concern when considering bathroom lighting. Bathrooms are divided into **ZONES 0**, **1** and **2**, based on their likely exposure to water. Only use light fittings in the zone for which they are designed. The main light should be switched on by a pull cord or switch outside the bathroom. The window recess is classed as **ZONE 1**.

**PLEASE NOTE:** The classification of bathroom zones has changed, **ZONE 3** no longer exists, but references to it may still appear on product packaging.

#### ZONE 0 ZO

Is the smallest volume that contains the bathtub, shower, basin etc. Minimum rating of IP67.

#### ZONE 1 Z1

Is the area above **ZONE 0**, up to a height of 2.25m above the floor. *Minimum rating of IP44*.

#### ZONE 2 Z2

Is the area above **ZONE 1** up to a height of 3m, as well as the area that is horizontal within 0.6m from **ZONE 1**. If the space under the bath cannot be accessed without using a tool, then that space is considered as un-zoned. *IP rating of at least IP44 is required*.

We have stated on each product which zone they are suitable for if restrictions apply.

BATHROOM WITH BATH

BATHROOM WITH SHOWER TRAY

#### Lighting Types

#### COB LED LIGHTING

A selection of our lights feature COB LED technology to ensure the brightest light output and longest lifespan. COB (Chip On Board) is the very latest technology when it comes to LED lighting. COB lamps consist of a higher number of LED chips, which are packed together to form one lighting module.

#### KEY FEATURES OF COB LIGHTING ARE:

- Enhanced efficiency
- Higher light output than SMD LED chips
- Longer lifespan
- Uniform appearance
- Same light output as a halogen lamp at a fraction of the energy usage, saving you money on energy bills

### Cabinet & Mirror Lights 2

#### LED COLOURS

Some of our LEDs are available in two colours, Cool White and Warm White so that you can choose the look you prefer. The images to the right show the difference in cool and warm light.

Curved Acrylic LED Over Mirror Light and Driver

Electric Showers

## Innovative **SHOWERS**

## Why choose an Ultra Finishing Shower?

## Safety First

Your safety is important to us, which is why the majority of our showers are thermostatic, to safeguard against accidental scalding. All our concealed twin, triple and dual control showers are also TMV approved – meaning industry standards to provide safe showering for all the family.

## Co-ordinating Taps

Our ability to offer complete co-ordination for your bathroom gives you the opportunity to tailor your chosen look with matching taps to suit your shower.

MADE IN BRITAIN

## Direct From Us to You

We are proud to manufacture our thermostatic twin and triple showers at our site in Halifax, Yorkshire - using the patented Valquest cartridge to create a shower you can depend on. There are no middle-men, our dedicated team manufacture the showers here in Britain, ready to ship straight to you via our national network of retailers.

## Product Innovatio<u>n</u>

We are dedicated to bringing you the latest designs using up-to-date technology. The new product design team benefits from a design process audited to ISO9001 standards, meaning each product is designed, sourced, evaluated and warehoused to the highest standard.

## ecoflow

## Water Saving Showers

At Ultra Finishing we are committed to helping our customers to be more water efficient. To reduce the amount of water your shower uses, opt for our water-saving slide rail kit, which uses air induction technology to reduce water usage by up to 25%. Alternatively, you can fit one of our 'eco-flow' regulators to any shower hose, to limit the flow of water to 6 litres per minute.

Our showers are tested to stringent quality standards, so we are confident of their ability to last, enabling us to offer market-leading guarantees. Our state-of-the-art testing facilities enable us to test the endurance and performance of our showers to ensure they comply with industry standards.

## The power behind your shower

There are lots of reasons to choose an Ultra Finishing thermostatic shower - safety, contemporary design, co-ordinating taps and market-leading guarantees. Even better, our shower valves are also great for your installer, meaning less time and therefore less cost to you! By installing one of our shower valves, you can enjoy the following benefits:

#### MADE IN BRITAIN

Our twin, triple and dual control showers are manufactured in Halifax by a dedicated team. We are proud to be members of the Made in Britain scheme - look out for the 'Made in Britain' logo on all relevant showers.

#### **INDUSTRY CERTIFIED**

Our concealed twin, triple and dual control shower valves are TMV and WRAS approved.

WRAS Appropriate products have been extensively tested by the WRc and are approved or pending approval to comply with the Water Regulations Advisory Scheme.

TMV2 approval means the shower will maintain the pre-set temperatures even if the water pressure varies when other appliances are used, preventing domestic hot water scalding.

TMV3 approval means that the shower meets Government health & safety requirements for use in public places such as schools, hospitals etc. Together, they ensure that our showers offer peace of mind and safe showering for all the family.

#### SAFETY FOR ALL THE FAMILY

- Thermostatic control to +/- 2 degrees even if the temperature or incoming pressures fluctuate
- Full thermal protection to prevent scalding even in the event of hot or cold water failure
- · In the event of hot or cold water failure, the valve will shut down the water supply

#### RELIABILITY

- Accurate flow control
- Excellent flow rates even at low pressure. Ultra showers can deliver 5.5 litres of water per minute at 0.1 bar pressure

• The patented Valquest cartridge is highly resistant to calcium build-up - even in hard water areas

## Installation made easy

Ultra Finishing Thermostatic Shower Valves contain the patented Valquest cartridge – which makes them simple to install and easy to maintain after installation.

- The cartridge is fully reversible, meaning if hot and cold supplies are the wrong way round, it doesn't need re-plumbing. Simply remove the cartridge, turn 180° and replace
- The patented cartridge is highly resistant to calcium build-up - even in hard water areas
- Full thermal protection to prevent scalding even in the event of hot or cold water failure
- Thermostatic control to +/- 2 degrees even if the temperature or incoming pressures

## How to choose your shower

When deciding what style of shower you require, you need to determine the type of water heating system you have in your home. You should ensure that your system has adequate pressure to operate the shower you choose.

This will affect your choice of shower and the shower's performance. To identify the type of system you have installed, there is a guide outlined here. You could also ask a qualified installer or call our technical and spares department on 01422 417110. This will ensure you pick the correct shower and enjoy your showering experience to its full potential.

# MAINS SYSTEM UNVENTED SYSTEM

#### **GRAVITY-FED SYSTEM**

Low Pressure

If you have a cold water tank in your loft and hot water cylinder (usually found in your airing cupboard) then you have a gravity fed system.

#### **Recommended For**

Suitable for all LP1 and LP2 combinations. For all our MP and HP combinations, you may need to use a suitable shower pump to give the required pressure for optimum performance.

High Pressure

If you have a combination boiler or instantaneous gas water heater (multipoint heater) then you have a high pressure mains system.

#### **Recommended For**

Suitable for all of our shower systems.

High Pressure

If your hot water is stored under pressure in a cylinder (usually situated in your airing cupboard or garage) you have a high pressure unvented system.

#### **Recommended For**

Suitable for all of our shower systems.

**Water Pressure Guide:** 

LP1 0.1 Bar Minimum LP2 0.2 Bar Minimum MP 0.5 Bar Minimum HP1 1.0 Bar Minimum HP2 2.0 Bar Minimum

## pioneer

Introducing a new concept in showering from Ultra Finishing the Pioneer Valve is injection moulded from a high grade engineering polymer.

A first in the market, with a state-of-the art

#### Indestructible

Pioneer is highly resistant to calcium build up, can withstand pressures of up to 25 bar and is temperature resistant up to 85 degrees.

#### Dependable

We offer a lifetime guarantee\* on the main Pioneer shower valve body against faulty material or manufacturing defects.

Partnered with the proven patented technology of the Valquest thermostatic cartridge.

The Pioneer Valve is 100% recyclable and manufactured in the UK, reducing its environmental footprint.

Engineering polymers are quickly becoming the material of choice in global aerospace applications. These materials are able to maintain their exceptional properties even when exposed to elevated temperatures and aggressive fuels. Typically, an engineering polymer is chosen for its range of enhanced physical properties and can replace traditional engineering metals such as, aluminium, Mazak, brass and some steels. Other properties exhibited by various grades of engineering polymers include high heat resistance, mechanical strength and rigidity etc.

\* Products must have been installed and commissioned fully in line with manufacturers' fitting instructions. The product must be used in a normal domestic application. Guarantee excludes serviceable parts, neglect or misuse, as well as any consequential loss.

From minimalist basin mono taps to the ultimate in bath and shower mixers, water has never felt so luxurious

# Taps

We have so many tap options, you are really spoilt for choice, including freestanding, open spout, and wall mounted options. Most of our taps also have Ceramic Disc Technology for ease of use and prolonged life.

Expertly designed and beautifully engineered, all our brassware is backed by industry leading guarantees. You'll find technical innovation throughout our tap collection. But do check what's suited to your water pressure. To find out more, look at our guide on page 221.

### **ecoflow** FLOW RESTRICTORS

We all need to reduce the amount of water we use the average person in the UK uses approximately 150 litres of water every day. This level of consumption is unsustainable and reducing the amount of water we use is no longer a choice - it is essential.

We offer a range of 'Eco-Flow' water regulators, which restrict the maximum flow rate to 6 litres per minute to help save water. The flow regulators are a quick and cost effective way to reduce your water usage.

Flow Regulator Suitable for use with basin FR201 £4.25 pair

Flow Regulator Suitable for use with traditional style mono basin fittings FR203 £6.05 each

Flow Regulator Suitable for use with any shower hose options FR004 £7.75 each

FR005 £10.65 pair

# *Designer*RADIATORS

### Designer Looks

Choose from our extensive range of designer options to suit your tastes

#### Add Some Colour

Many of our designs are available in multiple colour options to help you personalise your look

Designer radiators and towel rails provide so much more than heat they're a chance to turn up the style in any room

### **Heat Output**

All radiators vary in heat output. We recommend you seek advice from your plumber on the BTU requirements for your living space. Look out for double panel radiators and the exceptional heat output for larger spaces

Radiator Valves See our complementary **Radiator Accessories** Robe hooks and towel rail accessories available on / P271

# Designer Radiator and Heated Towel Rail FAQs

#### How much heat will I need?

All rooms are individual and therefore the heat output required from your selected radiator will vary. It is important that you choose the correct radiator to ensure that enough heat is generated to keep you comfortable. A sensible tip is to always choose a model with a higher heat output than you require, as this can always be controlled by turning them down.

#### What is the measurement for heat output?

All our radiators carry the heat output measured in either:

- BTUs (British Thermal Unit) or

Our BTU calculations use the British Standards of Delta t50c and t60c.

#### What heat output will I need for my room?

It is highly recommended that your installer calculates the BTU requirement for each applicable room, so you can get the maximum heat benefit from your chosen radiator. We strongly suggest this is done before purchasing your radiator.

#### What radiator designs offer the best heat output?

Basically, the bigger surface area that a radiator has, the more heat output will be generated. Another general guide is that painted finishes offer a slightly better heat output than chrome-finished items. To optimize the space you have available, we offer radiator designs that can be fitted horizontally or vertically. To get additional heat output from the same area, you can also choose options that include multi rows of tubes, panels and columns.

#### **Radiator colour options**

From stock, we offer the most current fashionable colour options across a wide range of products.

Please note that owing to the printing process, the actual colours on the radiators may vary slightly from those shown in our brochure.

All our dimensional details are published in our current brochure and on our website. However, owing to manufacturing tolerances, we strongly suggest that your final pipework position is not completed until you actually receive delivery of your radiator.

#### **Electric-only radiators**

Where your installation location does not have immediate access to an existing water supply, we can offer purpose-made electric-only products for a quick and easy solution to your heating needs. These electric-only products are supplied pre-filled with an electrical inhibitor solution, and fitted with a compatible heating element.

#### **Dual-fuel radiators**

Some of our radiators can also work as dual-fuel applications, which means that when your main heating system might be turned off in the summer months, you can still operate your radiators electrically if required. Please consult your plumber before purchasing heating elements.

#### Radiator valves options

Depending on your choice of radiator, we have several styles to choose from, details of which can be found on the left hand page.

#### Warning / precautions

Qualified persons should make all electrical and plumbing connections. When fitting radiators with heating elements, the radiator must always be mounted with the element at the bottom with the radiator in the upright position. Failure to do so may result in a fire hazard.

# Designer Radiator and Heated Towel Rails

### TECHNICAL INFO

- All radiators come complete with fixing screws.
- Prices exclude radiator valves and heating elements.
- After installing any new radiators, when refilling the system, it is recommended that a suitable inhibitor is used.
- All tappings are ½" BSP.
- Dimensions are subject to minor deviations.
   We recommend that pipework is not installed until receipt of heated towel rail.

# Butler Sinks (10)

Our range of butler sinks combine traditional style with exceptional build quality and attention to detail. Available in single or double bowl options, with a range of complementary taps, you can create a look that oozes traditional charm.

- Manufactured from fine Fireclay, giving enhanced durability and impact absorption
- The smooth non-porous glaze ensures a robust, hard-wearing surface
- Hand finished by skilled craftsmen to the highest quality standards
- Each product is rigorously inspected and quality tested for your peace of mind

Guarantees: 10 Year U 10 Year
