# SHOWERS

PURE EXHILARATION. THAT'S THE PROMISE OF EACH HUDSON REED SHOWER EXPERIENCE.

FROM ELEGANT FIXED HEADS, TO CASCADING WATERFALLS AND THE ULTIMATE MULTI-JET SHOWERS, YOU'LL DISCOVER THE IDEAL SOLUTION FOR YOU.

20 YEAR GUARANTEE

20 year  
guarantees unless  
otherwise stated

SHOWERS:  
**CHOOSING  
 YOUR PERFECT  
 SHOWER**

THERE ARE LOTS OF REASONS TO CHOOSE A HUDSON REED THERMOSTATIC SHOWER: SAFETY, CONTEMPORARY DESIGN, CO-ORDINATING TAPS AND MARKET-LEADING GUARANTEES. EVEN BETTER, OUR SHOWER VALVES ARE ALSO GREAT FOR YOUR INSTALLER, MEANING LESS TIME AND THEREFORE LESS COST TO YOU.

### HUDSON REED SHOWER BENEFITS

#### Installation Made Easy

A selection of our Thermostatic Shower Valves contain the patented Valquest cartridge, which makes them simple to install and easy to maintain after installation.

- The cartridge is fully reversible, meaning if hot and cold supplies are the wrong way round, it doesn't need re-plumbing. Simply remove the cartridge, turn 180° and replace
- The patented cartridge is highly resistant to calcium build-up, even in hard water areas

#### Safety For All The Family

- Full thermal protection to prevent scalding even in the event of hot or cold water failure.
- Thermostatic control to +/- 2 degrees, even if the temperature or incoming pressures fluctuate.

#### Made in Britain

Our twin, triple and dual control showers are manufactured in Halifax by a dedicated team, and we are proud to be members of the Made in Britain scheme.

#### Industry Certified

Our concealed twin, triple and dual control shower valves are TMV and WRAS approved.

**WRAS** Appropriate products have been extensively tested by the WRAS and are approved or pending approval to comply with the Water Regulations Advisory Scheme.

**TMV2** approval means the shower will maintain the pre-set temperatures even if the water pressure varies when other appliances are used, preventing domestic hot water scalding.

**TMV3** approval means that the shower meets Government health & safety requirements for use in public places such as schools and hospitals. Together, they ensure that our showers offer peace of mind and safe showering for all the family.

#### Reliability

- Accurate flow control
- Excellent flow rates - even at low pressure. Hudson Reed showers can deliver 5.5 litres of water per minute at 0.1 bar pressure

### SHOWER SYSTEMS EXPLAINED

#### Gravity-Fed System

Low Pressure

If you have a cold water tank in your loft and hot water cylinder then you have a gravity fed system.

Suitable for all LP1 and LP2 combinations. For all our MP and HP combinations, you may need to use a suitable shower pump to give the required pressure for optimum performance.

#### Mains System

High Pressure

If you have a combination boiler or instantaneous gas water heater (multipoint heater) then you have a high pressure mains system.

Suitable for all of our shower systems.

#### Unvented System

High Pressure

If your hot water is stored under pressure in a cylinder you have a high pressure unvented system.

Suitable for all of our shower systems.

#### Water Pressure Guide

LP1 0.1 Bar Minimum  
 LP2 0.2 Bar Minimum  
 MP 0.5 Bar Minimum  
 HP1 1.0 Bar Minimum  
 HP2 2.0 Bar Minimum
