Lucid LED Mirror / P111

Innovative design.
High-tech features.
It's time to look
at mirrors in a
new light

Mirrors can make a big impression in a bathroom – not just aesthetically, but also functionally. They reflect light and create space. With the right mirror or cabinet, a room can suddenly feel bigger.

As well as stunning design qualities, our mirrors also have innovative features that make them even more desirable. From touch sensor and motion sensor LED lighting technology through to Bluetooth with integrated speakers, they can add another level of luxury. And, of course, our cabinets can help maintain those sleek bathroom lines by keeping everything neat and tidy.

Installing Electrical Products in Bathrooms

Our illuminated mirrors must be installed in accordance with the latest version of BS7671:2008. If in doubt, consult a qualified electrician.

IPX4 Splash Proof:

All of our mirrors and cabinets fitted with a light are splash proof and suitable for use in Zone 2.

For full information on Lighting Zones, see page 122 in our Bathroom Lighting section.
